HIPAA NOTICE OF PRIVACY PRACTICES

THIS NOTICE DESCRIBES HOW MEDICAL INFORMATION ABOUT YOU MAY BE USED AND DISCLOSED AND HOW YOU CAN GET ACCESS TO THIS INFORMATION. PLEASE REVIEW IT CAREFULLY.

This Notice of Privacy describes how we may use and disclose your protected health information (PHI) to carry our treatment, payment or health care operations (TPO) for other purposes that are permitted or required by law. "Protected Health Information" is information about you, including demographic information that may identify you and that related to your past, present, or future physical or mental health or condition and related care services.

Use and Disclosures of Protected Health Information:
Your protected health information may be used and disclosed by your physician, our staff and others outside of our office that are involved in your care and treatment for the purpose of providing health care services to you, pay your health care bills, to support the operations of the physician's practice, and any other use required by law.

Treatment: We will use and disclose your protected health information to provide, coordinate, or manage your health care and any related services. This includes the coordination or management of your health care with a third party. For example, we would disclose your protected health information, as necessary, to a home health agency that provides care to you. For example, your health care information may be provided to a physician to whom you have been referred to ensure that the physician has the necessary information to diagnose or treat you.

Payment: Your protected health information will be used, as needed, to obtain payment for your health care services. For example, obtaining approval for a hospital stay may require that your relevant protected health information be disclosed to the health plan to obtain approval for the hospital admission.

Healthcare Operations: We may disclose, as needed, your protected health information in order to support the business activities of your physician's practice. These activities include, but are not limited to, quality assessment activities, employee review activities, training of medical students, licensing, marketing, and fund raising activities, and conduction or arranging for other business activities. For example, we may disclose your protected health information to medical school students that see patients at our office. In addition, we may use a sign-in sheet at the registration desk where you will be asked to sign your name and indicate your physician. We may also call you by name in the waiting room when your physician is ready to see you. We may use or disclose your protected health information, as necessary, to contact you to remind you of your appointment.

We may use or disclose your protected health information in the following situations without your authorization. These situations included as required by law, public health issues, communicable diseases, health oversight, abuse or neglect, food and drug administration requirements, legal proceedings, law enforcement, coroners, funeral directors, and organ donation. Required uses and disclosures under the law, we must make disclosures to you when required by the Secretary of the Department of Health and Human Services to investigate or determine our compliance with the requirements of Section 164.500.

OTHER PERMITTED AND REQUIRED USES AND DISCLOSURES WILL BE MADE ONLY WITH YOUR CONSENT, AUTHORIZATION OR OPPORTUNITY TO OBJECT UNLESS REQUIRED BY LAW.

You may revoke this authorization, at any time, in writing, except to the extent that your physician or the physician's practice has taken an action in reliance on the use or disclosure indicated in the authorization.

INFORMED CONSENT TO CHIROPRACTIC TREATMENT

I hereby request and consent to the performance of chiropractic adjustments and other chiropractic procedures including various modes of physical therapy on me (or on the patient named below, for whom I am legally responsible):

_____ by the chiropractic physician and/or anyone working in this office authorized by the chiropractic physician.

I further understand that such chiropractic services may be performed by the Physician of Chiropractic named here __Dr Misty Fullerton__ and/or other licensed Physicians of Chiropractic who may treat me now or in the future at this office. I have had an opportunity to discuss with Dr. Misty Fullerton and/or with other office or clinic personnel the nature and purpose of chiropractic adjustments and other procedures. I understand that results are not guaranteed.

I have read, or have had read to me, the above consent. I have also had an opportunity to ask questions about its contents, and by signing below, I agree to the treatment recommended by my physician. I intend this consent form to cover the entire course of treatment for my present condition(s) and for any condition(s) for which I seek treatment at this facility.

- Our Purpose

• A statement of clinical objective

- The intent of this statement of clinical objective for you to read and sign is to clearly define what we do and do not do in this office. This will allow you to aware of your responsibilities and our responsibilities in this exciting relationship.
- We recognize that there is intelligence within each individual, which not only keeps you alive, but also coordinates, repairs, renews, and heals every cell of your body. The nervous system is a main coordinating system and distribution center for this life power and that spinal (vertebral) subluxations interfere with the flow of this life power.
- We recognize that proper coordination, repair, healing, locomotion, motivation, and genetic potential can not be expressed when this life power is blocked. Subluxations of the spine do this. We recognize that the chiropractic adjustment releases the interference to the nerve system increasing its capacity to carry this life power.
- We recognize that everyone, in spite of their symptoms or ailments, can benefit from a nerve system that is more flexible, elastic, able to grow and develop without the interfering effect of spinal subluxations.
- We recognize that symptoms are not necessarily a sign of illness, but also occur to alert the individual of the need for change. We recognize that specific location of symptoms do not tell the specific location of subluxations, and that the severity of symptoms is not consistently directly related to the severity of subluxations.
- We do not name or treat symptoms, conditions or ailments. We do not state directly or imply that any specific adjustment or series of adjustments will have a direct effect on any condition a person may be presenting.
- We do not discourage seeking medical attention for naming or treating ailments.
- We recognize that there are many professions that attempt to make people more comfortable by treating their conditions. We will not venture into the practice of medicine by telling you to take or not to take any specific treatment. We do feel it is your responsibility to speak with your physician to determine the objective to be obtained by ingesting any drug or receiving any treatment and determine if this is consistent with your desire for wellness. You should seek the physician's consult in potential reduction of medication levels. As spinal adjustments help a body to normalize the body chemistry changes. Naturally medication levels for a non-flexible body, stuck in sickness, is not the same as needed for a body on the road to wellness.

Patient Name: _____ **Date:** _____

- We choose clinically to help each individual member of our practice move to a greater level of wellness, elasticity, personal growth and development by initiating the process of recovery by adjusting spinal subluxations.

- I _____ have read this statement of purpose and understand its contents. I choose to have my subluxations adjusted. Although most often symptoms and ailments undergo marked changes with the adjustment, I understand that the adjustments received in this office are not a treatment for ANY condition, symptom or ailment. I also understand that Dr. Fullerton and Dr. Tivoli are not discouraging my seeking the services of any other type of practitioner.
